NANTHA KUMAR V

FULL STACK / SOFTWARE ENGINEER | REACT.JS | NODE.JS | NEXT.JS | PHP

+91 89401 95501 | vnanthakumar00@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with 4 years of experience developing and maintaining web applications using React.js, Next.js, JavaScript, Node.js, PHP, and WordPress. Experienced in modernizing PHP-based eCommerce dashboards by converting interfaces into React-based dashboards, building responsive user interfaces, integrating REST APIs, and contributing to multiple React.js, Next.js, and Node.js projects. Strong foundation in backend integration, MySQL, application deployment, debugging, and frontend performance optimization. Continuously develops skills through self-directed learning and hands-on project work, and collaborates with design, QA, and backend teams to deliver production-ready applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, jQuery, AJAX, Next.js

Backend & APIs: Node.js, PHP, REST API Integration, JSON, MySQL

CMS & eCommerce: WordPress, Custom Theme Development, Custom Plugin Development, WooCommerce, Elementor, Advanced Custom Fields (ACF), Umbraco CMS

Deployment & Hosting: Windows IIS, cPanel, Plesk, DNS Management, SSL Certificates, Website Migration, FTP/SFTP, UAT and Production Deployment

Professional Development: Self-directed learning in modern JavaScript development, React.js, Next.js, and Node.js through hands-on project work.

Tools: Git, GitHub, Docker, Figma, Adobe Illustrator

Quality & Optimization: Google Lighthouse, Core Web Vitals, Technical SEO, Accessibility, Responsive Design, Performance Optimization

PROFESSIONAL EXPERIENCE

WordPress Developer | Bright Bridge Info Tech | Jul 2024 – Present

- Developed 12+ responsive WordPress websites using PHP, JavaScript, Tailwind CSS, Elementor, and Advanced Custom Fields (ACF).
- Applied self-learning to strengthen knowledge of modern JavaScript frameworks and Node.js, translating concepts into practical project work and collaborating with team members across the application stack.
- Contributed to the modernization of eCommerce platform dashboards by converting PHP-based dashboard interfaces into React.js dashboards, improving the frontend structure and maintainability.
- Worked on multiple web application projects involving React.js, Next.js, and Node.js, contributing to frontend development, application features, API integration, and debugging.
- Built 3 React.js websites for internal and client use, including 2 dynamic, data-driven websites and 1 static marketing website; worked on component structure, routing, and API-driven content.
- Developed custom WordPress plugins and reusable theme components to improve repeat-project setup and development efficiency.
- Integrated REST APIs and third-party services to support dynamic website content and business workflows.

- Improved website performance through lazy loading, image compression, caching, and Core Web Vitals best practices.
- Collaborated with UI/UX designers, QA engineers, and backend developers to deliver and troubleshoot production-ready web applications.
- Managed deployments across Windows IIS, cPanel, and Plesk, including DNS configuration, SSL certificates, website migrations, and UAT/production release support.

Freelance WordPress & Frontend Developer | Self-Employed (Part-Time) | Jan 2023 – Present

- Designed and developed custom WordPress, WooCommerce, and Shopify websites based on client business requirements.
- Worked on React.js, Next.js, and Node.js projects, gaining hands-on experience with modern JavaScript application development, routing, API integration, and debugging. Also delivered a 4-month Next.js business web application project, working with page routing, API integration, and server-rendered pages.
- Integrated third-party APIs, payment gateways, contact forms, analytics, and marketing tools.
- Improved website performance using Google Lighthouse, Core Web Vitals practices, lazy loading, caching, and code refactoring.
- Implemented technical SEO improvements, including structured data, metadata, sitemap configuration, and page-speed enhancements.
- Handled website migration, hosting management, SSL/DNS configuration, backups, server maintenance, bug fixes, and feature updates.

Product Developer | 6Storage | Aug 2022 – Jul 2024

- Developed and maintained WordPress websites using Elementor, ACF, PHP, HTML, CSS, and JavaScript.
- Customized WordPress themes and plugins to meet client requirements.
- Managed cPanel and Plesk hosting environments, including deployments, SSL, backups, and website maintenance.
- Maintained Umbraco CMS websites and improved responsiveness and usability.
- Worked with QA and design teams to resolve issues and deliver client website updates.

SELECTED ACHIEVEMENTS

- Delivered 15+ responsive websites across healthcare, SaaS, eCommerce, and business domains.
- Improved Google Lighthouse Performance and Accessibility scores from approximately 40% to 85+ on multiple production websites.
- Built reusable WordPress components that reduced repeat development effort and improved delivery timelines.
- Mentored junior developers in WordPress, HTML, CSS, and JavaScript development.

EDUCATION

Master of Computer Applications (MCA) | Madurai Kamaraj University, Madurai | Apr 2024 – Sep 2026

Bachelor of Computer Applications (BCA) | The American College, Madurai | Jun 2019 – Jul 2022
